EXPERIENCE

NCL Lab, NED University — *Frontend Developer Intern*

March 27, 2023 - April 20, 2023

- Developed and maintained the frontend of the Agha Khan Hospital's Ophthalmology Department's website.
- Utilized HTML, CSS, and JavaScript to create a responsive and user-friendly web interface.
- Contributed to the timely completion of web project while adhering to project specifications and deadlines.

PROJECTS

ViewTube — *Youtube Clone*

- Designed to mimic the functionality of real YouTube platform, with features such as video playback and search functionality.
- Key features include a responsive user interface, video playback, and dynamic search capability.
- Built using React.js, React Router DOM for navigation, Context API for state management, and Tailwind CSS for responsive styling.

Dashboard — *Industrial Analytics Dashboard*

- Developed a dashboard using React.js and Tailwind CSS to empower technicians in monitoring and maintaining motor performance.
- Implemented interactive charts to visually represent key performance indicators and trends in motor data.
- Ensured a user-friendly interface with intuitive navigation and interactive elements for enhanced user experience.

Notes App — *Note Taking App*

- Developed a note taking app with the ability to add new notes, search notes based on text content, delete notes and seamlessly switch between dark and light modes to suit user preferences.

EDUCATION

B.E Computer Systems Engineering — *NED University*

October 2020 - Present

SKILLS

Languages

- HTML
- CSS
- JavaScript
