#### INTERMEDIATE

Khatoon-e-Pakistan Govt. College  
2018 - 2020

#### UNDERGRADUATE

NED University  
2020 - present

### SUMMARY

As a front-end web developer with a strong grasp of HTML, CSS, Bootstrap, and JavaScript, I am eager to contribute my skills to the industry. While I may not have prior experience in the field, I have taken the time to develop my abilities through online courses, tutorials, and independent projects.

My understanding of HTML and CSS allows me to create clean, visually appealing web pages with ease. I am comfortable using Bootstrap to build responsive designs that look great on any device. I also have experience with JavaScript, which enables me to add interactivity to websites through dynamic effects, form validation, and more.

I am a fast learner and always up for a challenge. I am excited to work alongside experienced developers to expand my knowledge and take on new projects. I am committed to producing high-quality work and am dedicated to meeting project deadlines.

### SKILLS
